WHAT LITTLE ONES CAN DO. Children from five to ten years of age can open and air the beds in the morning; can wash and wipe dishes; can bring from the cellar all the coal and wood to be used in other parts of the house, by repeating the journey many times with light loads each time. They can wash the inside of windows; can clean silver; can sew on buttons. They can sweep the back stairs or any bare floor, not a heavy carpet; and a large room may be divided into sections and swept by smalls hands. They can tend a baby—not by lifting; no growing child should lift a heavy baby—and can take a baby to ride in its carriage. They

THE BEST BARCAIN EVER OFFERED IN SEWING MACHINES.

A \$45 SEWING MACHINE for \$16.

INCLUDING ONE YEAR'S SUBSCRIPTION TO THE ENQUIRER, WE have made such arrangements as enable us to offer the CHICAGO SINGER SEW-ING MACHINES at lower rates than ever before for a GOOD MACHINE, and we offer our readers the advantage of the unprecedented bargains.

This Machine is made after the latest models of the Singer Machines, and is a perfect facsimile in shape, ornamentation and appearance. All the parts are made to gauge exactly the same as the Singer, and are constructed of precisely the same materials.

The utmost care is exercised in the selection of the metals used, and only the very best quality is purchased. Each Machine is thoroughly well made and is fitted with the utmost nicety and exactness, and no Machine is permitted by the inspector to go out of the shops until it has been fully tested and proved to do perfect work, and run light and without noise.

THE CHICAGO SINGER MACHINE has a very important improvement in a Loose Balance Wheel, so constructed as to permit winding bobbins without removing the work from the Machine.

The Loose Balance Wheel is actuated by a solid bolt passing through a collar securely pinned to the shaft outside of the balance wheel, which bolt is firmly held to position by a strong spiral spring. When a bobbin is to be wound, the bolt is pulled out far enough to release the balance wheel, and turned slightly to the right or left, where it is held by a stop-pin until the bobbin is filled. Where the Machine is liable to be meddled with by children, the bolt can be left out of the wheel when not in use, so that the Machine cannot be operated by the treadle. The thread eyelet and the needle clamp are made SELF-THREADING, which is a very great

Each Machine is Furnished with the Following Attachments:

6 Hemmers, all different widths, 4 Screw Driver, 1 Foot Ruffler. Gauge, 1 Tucker,
Package of Needles, 1 Thread Cutter,
Throat Plate, 1 Oil Can filled with Oil, 1 Check Spring, The driving wheel of this Machine is admitted to be the simplest, easiest running and most

onvenient of any. The Machine is self-threading, has the very best tension and thread liberator, is made of the best material, with the wearing parts hardened, and is finished in a superior style. It has veneered cover, drop-leaf table, 4 end drawers and center swing drawer. The manufacturers warrant every Machine for 5 years.

This valuable Sewing Machine is GIVEN AS A PREMIUM for 60 yearly subscriber to THE YORKVILLE ENQUIRER at \$1.75 each; or for 30 yearly subscribers at \$1.75 each, and \$8.00 additional. Price, including one year's subscription to THE YORKVILLE ENQUIRER, \$16.00. Our price—\$16,00—is for the Machine well crated, and delivered on board the cars in Chicago, with all attachments and accessories. The Machine will be shipped direct to the subscriber or club-maker, as the case may be, and the freight will be paid by the person who receives the Machine. The manufacturers write us that the freight to any point in this section will average about \$1.50. Give name of freight station if different from post office address.
